

1.2 可在線上撰寫程式的 OnlineGDB

如果你只是在練解題，只會寫些小程式，OnlineGDB 是一個不錯的選擇，你不用安裝開發環境，只要連上 [OnlineGDB](#) 網站，就可以直接使用。

按下上面綠色的 [Run]，執行結果就會顯示在下面。

The screenshot displays an online C++ compiler interface. At the top, there is a toolbar with buttons for 'Run', 'Debug', 'Stop', 'Share', 'Save', 'Beautify', and a download icon. The 'Language' is set to 'C++'. The main editor area shows a file named 'main.cpp' with the following code:

```
1 - /*****  
2  
3 | | | | | Online C++ Compiler.  
4 | | | | | Code, Compile, Run and Debug C++ program online.  
5 | Write your code in this editor and press "Run" button to compile and execute it.  
6  
7 *****/  
8  
9 #include <iostream>  
10  
11 using namespace std;  
12  
13 int main()  
14 {  
15     cout<<"Hello World";  
16  
17     return 0;  
18 }  
19 |
```

Below the editor, there is an 'input' field and a console output area. The console shows the output 'Hello World' and the message '...Program finished with exit code 0 Press ENTER to exit console.'

當手邊沒有電腦，只有手機和平板時，這種線上開發平台就很方便。
